

2026 EDITION · MARKET BRIEF

KSA Investment Overview

Ownership, financing, residency, and acquisition essentials

Why KSA real estate

Vision-led development, demographic depth, tourism expansion, corporate growth, and major infrastructure investment are creating opportunities across residential, hospitality, logistics, office, and mixed-use assets.

ASCENDURE VIEW

Use market evidence at the building and micro-location level. Headline narratives should support—not replace—legal, technical, and commercial due diligence.

Foreign ownership

The updated Non-Saudi Real Estate Ownership Law has applied since 22 January 2026. Eligibility depends on the buyer category and geographical-zone controls. Legal ownership becomes effective through registration in the Real Estate Registry.

ASCENDURE VIEW

Use market evidence at the building and micro-location level. Headline narratives should support—not replace—legal, technical, and commercial due diligence.

Financing reality

The right to own and the ability to obtain financing are separate. Residents generally have broader lender access. Non-residents may face fewer options, enhanced source-of-funds checks, and larger equity requirements.

ASCENDURE VIEW

Use market evidence at the building and micro-location level. Headline narratives should support—not replace—legal, technical, and commercial due diligence.

Premium Residency

The Real Estate Owner product currently requires qualifying residential real estate valued at SAR 4 million or more, subject to programme conditions. Residency remains linked to the qualifying ownership or usufruct.

ASCENDURE VIEW

Use market evidence at the building and micro-location level. Headline narratives should support—not replace—legal, technical, and commercial due diligence.

Acquisition roadmap

Confirm eligibility and zone; appoint advisers; verify title and property compliance; agree conditional terms; secure funding; execute and register; then complete handover and operational setup.

ASCENDURE VIEW

Use market evidence at the building and micro-location level. Headline narratives should support—not replace—legal, technical, and commercial due diligence.
